

DETAILS IN THE SAND

Half of the fun of watching sand sculptors at work at Hampton Beach next to the Seashell Stage on Ocean Blvd. is seeing their ideas take shape in the sands at astonishing speed. The other half is the guesswork of what is being sculpted. So, we present a few educated guesses: To the left, the father-son Lepire team works on Darth Vader's sandy kin. Right, a tribute to Johnny Carson's "Karnak" routine takes shape; left middle, a rendition of "The Lady" at Hampton Beach; right middle, Yoda gets an ear job; bottom; the central castle takes shape. Of course, these are all guesses - and you will have to see for yourself how these 'demo' sculptures turn out - and the twelve competing sculptures. For more information, please turn to Page 7A, or visit our sandsculpture pages at BeachNewsNH.Com.
